SUMMARY

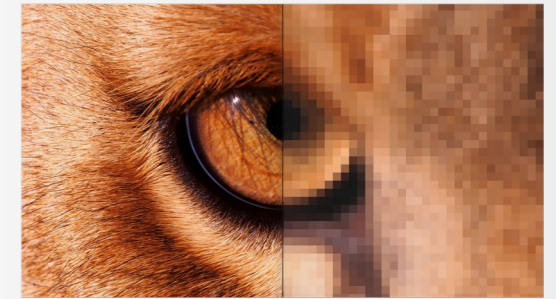

TELEVISIONS

Optimised resolution

Whether your programme is in high definition or not, the picture upscaling function makes it possible to enhance and resize it. To get a higher resolution, the TV dynamically recomposes the picture and reduces noise to get the best result. Result: whatever the programme, escape in high or ultra high definition.

Technology that is good for contrast and the environment

LED technology provides several major advantages: deep blacks, richer brightness, precise details and adjustable backlighting. The LEDs in our televisions also consume less energy and guarantee greater durability than other backlighting solutions.

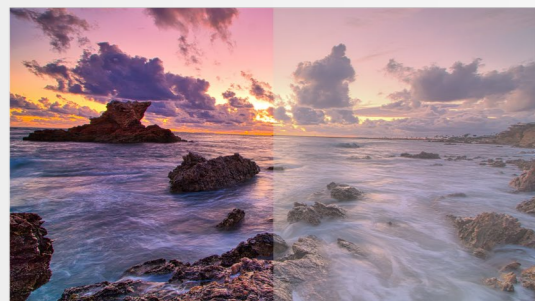

The TV is also aesthetically pleasing with its elegance and clean lines

SCHNEIDER pays particular attention to the finish and carefully selects its materials. One goal: to make the TV beautiful and elegant so that it fits perfectly into your interior design.

The fast lane for all your entertainment

The digital connectors available on all SCHNEIDER televisions provide the ultimate in high definition image and sound with just a simple connection. Consoles, computers, Blu-ray etc. Treat yourself to great images and acoustics without compromising on quality.

A wide range of colours awaits you

SCHNEIDER televisions release a wide range of colours and shades. Enjoy authentic colorimetry, a faithful reflection of reality, and an increasingly immersive experience. The shades bring a thousand and one contrasts for naturally fascinating image quality.

Enjoy high quality audio

SCHNEIDER televisions are equipped with top quality speakers capable of transcribing the entire sound spectrum, including low frequencies. Whether listening to music or watching your favourite programme, the acoustic system of our devices will resonate with you.

For an experience that is a total success

Ultra-fast, SCHNEIDER Smart TVs are multitasking and even more powerful. As the technology of our televisions becomes more advanced, we equip all our devices with latest generation processors so that responsiveness and experience are even more flawless.

Customised entertainment

With Android TV, your favourite content takes centre stage. Whether you are looking for a new series to binge watch or just want to pick up where you left off, Android TV has you covered.

An incredible selection of apps

From Netflix to YouTube to a multitude of games, the Google Play Store for Android TV offers an incredible number of apps. So, whatever your interests are, you are sure to find an app that suits you.

Your Google Assistant is ready

Google Assistant has been integrated into Android TV. Just say "Hey Google" or press the mic button on your remote for quick access to the latest blockbusters, see your favourite team's latest score, or dim the lights - all without interrupting your movie.

Built-in Chromecast

Android TV allows you to quickly stream photos, videos, music, and all the content you love from your favourite device to your TV.

Netflix, thousands of titles available at your fingertips

Netflix is a streaming service that offers a huge selection of award-winning TV shows, films, cartoons, documentaries and other TV programmes. Press the dedicated button from your remote control, and access whatever you want, when you want, ad free. With new movies and TV shows every week, there is something for everyone!

PROJECTORS

Silence... It's playing!

SCHNEIDER pico-projectors are much quieter than traditional video projectors, so that the quality of your experience is not affected by noise. Enjoy your programme in peace!

A touch screen for easy operation

Without visible buttons, the touchscreen control panel offers quick response and a clean design.

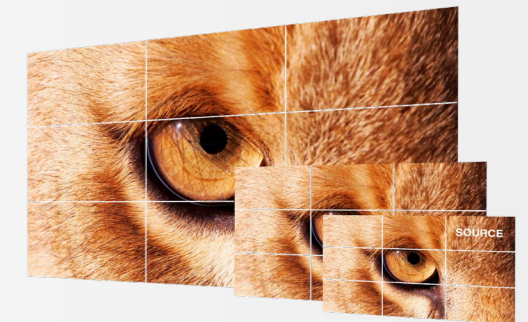

Your new travel partner

Compact in size, SCHNEIDER pico-projectors are designed to go everywhere with you. Autonomous, they are equipped with a lithium battery to allow you to easily project your content wherever you desire.

Get the best possible resolution

With the downscaling function, Schneider video projectors allow you to benefit from the best possible definition, whether your programme is HD or not. The image is enhanced, resized and recomposed to dynamically limit noise and get the best result.

Mobile and trendy

With the HDMI port available on all SCHNEIDER pico-projectors, you have the ultimate in high definition image and sound. Consoles, computers, Blu-ray etc. Thanks to the USB port, access all content that can be stored on a compatible external medium. Videos, music, photos... The possibilities are endless!

As simple as it is intuitive

Your SC100HNA pico-projectors allow you to enjoy the best on-demand video and music services as easily as on your smartphone. Nothing could be simpler: once connected to the Internet, download your favourite applications and enjoy the show.

Share your playlists wirelessly

Equipped with the Bluetooth™ function, our soundbars can be easily connected to all your compatible devices: computer, television, tablet, telephone, etc. Whatever your source, enjoy great sound any time of the day!

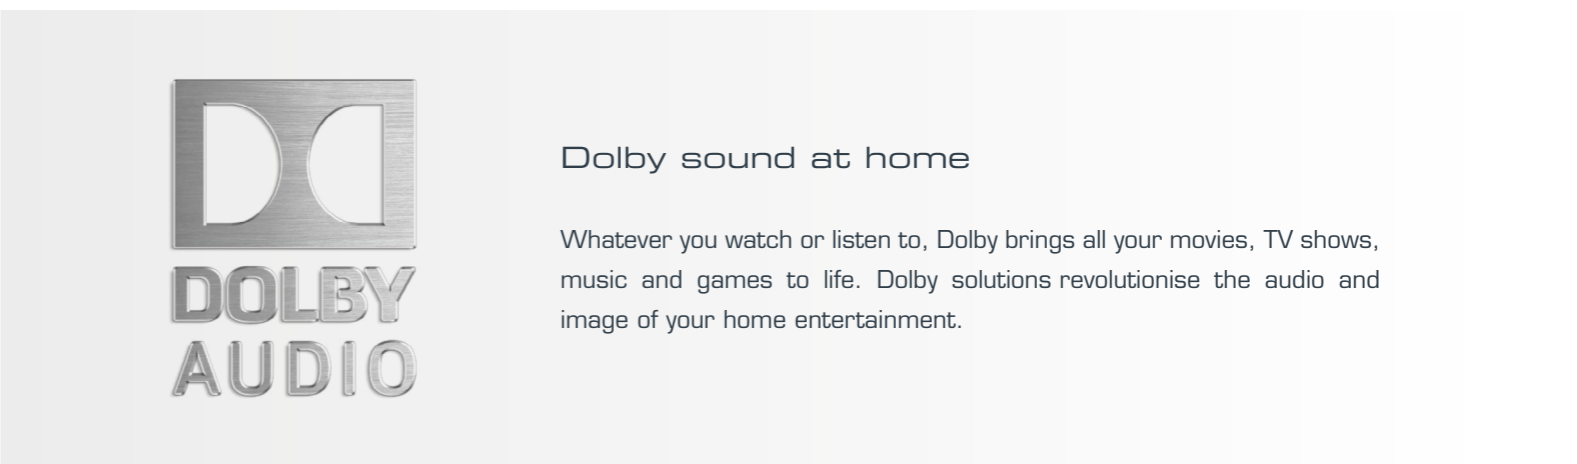

Resonate with high definition sound

With the digital connectors available on all SCHNEIDER sound bars, you have the ultimate in high definition sound. Equipped with the HDMI ARC function, a single cable is enough to broadcast all your audio sources connected to your television (consoles, computers and Blu-rays).

The broadcast solution without limitations

Regardless of the design of your television or the source of your music, our audio solution will find its place in a column speaker or a sound bar. True chameleons, the Detachable Series audio systems are designed to meet all of your broadcasting needs, whatever the type of installation or your use.

Dolby sound at home

Whatever you watch or listen to, Dolby brings all your movies, TV shows, music and games to life. Dolby solutions revolutionise the audio and image of your home entertainment.

Completely connected

With numerous digital connections, SCHNEIDER soundbars meet all your needs. Enjoy high definition sound with a simple connection.

An even more immersive experience

Get closer to the sound thanks to the SCHNEIDER horizontal subwoofer. It slips under your sofa to let you feel the bass at its best. Wireless, it will fit discreetly into your interior.

Active and effective noise reduction

Equipped with ANC technology, the Silent headphones effectively reduce outside noise. With a reduction coefficient of up to 98%, ambient noise will no longer bother you. Isolate yourself from the outside world thanks to the active noise reduction system: enjoy an incredible experience while listening to your music and nothing else!

The perfect travel companion

With its effective noise reduction and Bluetooth technology, enjoy pure sound with the Qualcomm audio system, ideal for all styles of music, with superior Bluetooth performance. Take it on a trip without fear of battery failure, thanks to its autonomy of 16 to 20 hours (depending on the use of noise reduction). Enjoy a long moment of continuous listening with these headphones ideal for long trips.

SCHNEIDER

Office

Discover the new IT range
for professionals

Monitors, desktops, keyboards, mouse etc. SCHNEIDER is making a comeback on the IT market by offering a complete office automation range adapted to the needs of professionals and students.

Instantly recognise SCHNEIDER

Packaging is an essential asset for a brand's image. This is why SCHNEIDER has developed a coherent graphic charter, ensuring good shelf visibility and allowing consumers to recognise SCHNEIDER instantly.

A subsidiary of SCHNEIDER CONSUMER GROUP created in 2005, SCHNEIDER CONSUMER SERVICES manages the after-sales service of the SCHNEIDER brand. Technicians specialised by product family are in charge of repairing all our products, under warranty and out of warranty.

For optimum quality, SCHNEIDER CONSUMER SERVICES also takes care to analyse all faults in order to allow the SCHNEIDER brand to improve the design of its devices.
